

# Unit 12: Specialist study in creative media production

## Assessment & Grading Recording Sheet

To achieve a Pass grade the learner must achieve all of the following criteria;

Learner Name: Luke Nunney

Assessor: Sally Johnson

Date: 15.02.19

<b>Assessment Criteria for PASS</b> R= Referral, S = satisfactory, HS = High Standard, VHS = Very High Standard	R	S	HS	VHS	<b>Summary of Evidence/Reason for Referral</b>
<b>1.1</b> Critically describe a range of contextual perspectives influencing a chosen discipline in creative media production.		X			<b>Essay Proposal</b> You have investigated three different ideas to write your report on and looked into how these will affect your final film. Your proposal is quite detailed. You have repeated yourself quite a bit through in the first few sentences of the rational. You need to make sure you re-read your work before handing it in. I can see what you are intending to write about though, your research and experiments that you are hoping to carry out.
<b>1.2</b> Apply knowledge of critical perspectives to inform own practice.		X			
<b>2.1</b> Identify a range of relevant academic and cultural sources for a personal research project.		X			<b>Literature Review</b> You have identified sources of information for use in your report. You have talked about two books in quite a bit of detail and added in quotes etc. You could also have added more information as to whether these sources were relevant and questioned their validity more. I would also have like to have seen a paragraph about further reading that you may have intended to look at as it seems that these books weren't that useful.
<b>2.2</b> Critically evaluate information from a range of sources to inform ideas.		X			
<b>3.1</b> Apply academic conventions in the production and presentation of ideas.		X			<b>Specialist Study Report</b> Your report is informative but at times is lacking in evidence to back up some of the claims that you have made. The stills that you have added in are good and show off the cinematography that you are talking about well. I would have liked to see some further reading though. Online journals and articles that you could have read to back up the comments that you have made about colour temperature etc. We talked about the books that you got from the library and that these were not very helpful – you could have gone back and borrowed some others instead. I can see that you have made some interesting points though and this is good for the amount of time you had to write this.
<b>3.2</b> Effectively communicate ideas in appropriate formats.		X			
<b>Has the student passed the Unit?</b>	<b>Pass:</b> <span style="color: green; font-size: 2em;">X</span>		<b>Referral:</b>		<b>Referral Actions:</b>
